DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,4-9,11-19 rejected under 35 U.S.C. 102(b) as being anticipated by Rees, US 5,284,597. Example 3 in column 5 lines 11 et seq. discloses the treatment of carpet swatches with a cleaning composition comprising propylene glycol t-butyl ether, which is disclosed in applicant's specification as meeting the limitations of the glycol ether solvent claimed in claim 1, sodium lauryl sulfate, which is a surfactant, water, which is a polar solvent. The cleaned carpet swatch meets the limits of claims 18 and 19.

Claims 1-5, 7-11, 13-16, 18 and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Hayday et al., US 5,888,250. Claim 1 in col 7 lines 31-43 claims a composition for dry cleaning garments comprising from about 82% to 90% propylene glycol tertiary butyl ether, a fabric softener and water. See also claims 6 and 8. Said cleaned garments read on the product claims 18 and 19.

Claims 1-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Osberghaus et al., US 4,863,629. See claim 1 bridging columns 5 and 6. a liquid

Application/Control Number: 10/714,785

Art Unit: 1751

cleaning composition comprising 1-20% surfactant, 1-20% propylene glycol mon-tert.butyl ether, water and other ingredients is claimed. The preamble "fabric treating composition" is given no patentable weight in this rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is impossible to determine the scope of the claimed glycol ether solvent without undue experimentation.

Information Disclosure Statement

The examiner notes that the IDS filed 8/16/2004 has not been signed and returned because the number of references is excessive. Please provide a concise explanation of those considered most pertinent.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret Einsmann whose telephone number is 571-272-1314. The examiner can normally be reached on 7:00 AM -4:30 PM M-Th and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on 571-272-1316. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
